Not FDIC-Insured. Not Bank-Guaranteed. May Lose Value.

Dreyfus Money Market Fund – Service Shares

Fund Goal

The fund seeks as high a level of current income as is consistent with the preservation of capital.

Investment Approach

To pursue its goal, the fund normally invests in a diversified portfolio of high-quality, short-term, US-dollar-denominated debt securities. The fund's investments are concentrated in the banking industry, because the fund normally invests at least 25% of its net assets in domestic or dollar-denominated foreign bank obligations. The fund seeks to invest in

securities that present minimal credit risk, based on BNY Mellon Investment Adviser's assessment of the issuer's or guarantor's credit quality and capacity to meet its financial obligations, which may include environmental, social and governance (ESG) factors as appropriate and applicable, among other factors. The fund is a money market fund managed to meet the requirements of Rule 2A-7 under the Investment Company Act of 1940.

¹As a measure of current income, 7-day yield more closely reflects the fund's current income-generating ability than the total return.

²The yields quoted reflect the current absorption of certain fund expenses by BNY Mellon Investment Adviser, Inc., without which yields would be "restated" as shown above.

³Portfolio composition is subject to change at any time.

⁴Please see the prospectus for expenses as of the fund's most recent fiscal year-end. Operating expenses may vary from month to month.

⁵Any order in proper form placed with BNY Mellon Investment Adviser, Inc. by the fund's trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.

⁶Maturity distribution reflects the final maturity date except for floating rate securities for which the next reset date is reflected.

⁷WAM is a measure of the average effective maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. WAM calculations allow for the maturities of certain securities with periodic interest rate resets to be shortened. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.

⁸WAL is a measure of the average final maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. Unlike WAM, WAL calculations do not allow maturities to be shortened for periodic interest rate resets. Accordingly, WAL will generally be higher than WAM.

⁹Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (IF ANY) distributed during the period, and annualized based upon the number of days in the distribution period.

Investors should consider the investment objectives, risks, charges, and expenses of a money market fund carefully before investing. To obtain a prospectus, or summary prospectus, if available, that contains this and other information about the fund, contact your financial professional or visit [dreyfus.com](https://www.dreyfus.com). Read the prospectus carefully before investing.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

The fund's short-term corporate and asset-backed securities holdings involve credit and liquidity risks and risk of principal loss. Dividends, if any, are payable pursuant to the fund's stated policy.

ESG evaluation risk. Where appropriate and as applicable, Dreyfus incorporates environmental, social and governance (ESG) factors into its fundamental credit research process. Dreyfus may not consider ESG ratings or other ESG data or analysis in connection with every investment decision and may determine that other attributes of an investment outweigh ESG considerations when making an investment decision. ESG factors may not be determinative with respect to a given credit analysis or investment decision. Accordingly, a fund may invest in securities of a company/issuer with a negative ESG profile, and a fund may divest or not invest in a company/issuer with a positive ESG profile. In light of the fact that ESG data often lacks standardization, consistency and transparency, such data including ESG ratings for certain issuers/companies may not be available, complete or accurate. As a result, the fund's investments may differ from, and potentially underperform funds that incorporate ESG data from other sources or utilize other methodologies.

The information being provided is general information about our firm and its products and services. It should not be construed as investment advice or a recommendation with respect to any product or service and should not serve as a primary basis for investment decisions. Please consult a legal, tax or financial professional in order to determine whether an investment product or service is appropriate for a particular situation.

BNY Investments Dreyfus (Dreyfus) is a division of Mellon Investments Corporation (MIC), a registered investment adviser and subsidiary of The Bank of New York Mellon Corporation (BNY). Securities are offered by BNY Mellon Securities Corporation (BNYSC), a registered broker-dealer and affiliate of MIC. BNY Investments is the brand name for the investment management business of BNY and its investment firm affiliates worldwide. BNY is the corporate brand of The Bank of New York Mellon Corporation and may be used to reference the corporation as a whole or its various subsidiaries generally.
