The performance data quoted represents past performance, which is no guarantee of future results. The performance shown is net of fund expenses and includes the absorption of certain fund expenses by the management company, BNY Mellon Fund Management (Luxembourg) S.A., and there is no guarantee that the management company will continue to absorb these expenses. As a measure of current income, 7-day yield is more reflective of the fund's current income-generating ability than total return. The 7-day yield and other yield quotations may reflect the waiver of receipt of a portion of the management fee and/or the voluntary assumption of certain expenses of a sub-fund by BNY Mellon Fund Management (Luxembourg) S.A. which would have the effect of lowering the Fund's expense ratio and generating higher yield.

An investment in a money market fund is not a guaranteed investment; it is different to an investment in deposits as the principal invested is capable of fluctuation. The Fund does not rely on external support for guaranteeing its ability to sell its assets and/or meet redemptions (liquidity) or stabilizing the fund's price per unit/share (Net Asset Value). There is a risk of loss of the principal invested, which is borne by the investor. The fund's prospectus includes important information about its principal investment strategy including, how the investment adviser assesses, how an environmental, social and governance ("ESG") event may materially or negatively impact the value of the fund's securities.

The fund outlined is not available to U.S. Persons (as described in the Prospectus) and may only be offered and sold in accordance with Regulation S under the U.S. Securities Act of 1933. Please see over for important information.

This document may not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or not authorized. Any offer of securities may be made only by means of the Prospectus and/or Key Investor Information Document (KIID). Past performance is not a guide to future performance. The value of investments and the income therefrom is not guaranteed and can fall as well as rise due to a variety of factors, including interest rate, stock market and currency movements. No investment strategy or risk management technique, including the ones used by the fund described herein, can guarantee return or eliminate risk. When you sell your investment you may get back less than you originally invested. No warranty is given as to the accuracy or completeness of the information contained herein and no liability is accepted for errors or omissions in such information. BNY Investments, and its affiliates, do not undertake to revise or update this information in any way. An investment in the funds described herein involves certain risks. Prospective investors should ensure that they: (i) independently investigate the investment strategy and manager; (ii) understand the nature of the investment and the extent of their exposure to risk; (iii) have sufficient knowledge and experience to make their own legal, tax, accounting, and financial evaluation of the merits and risks of participating in an investment in the products described herein; (iv) consult with qualified investment, legal, and tax professionals before making any investment; and, (v) consider the appropriateness of investing in the products described herein in light of their own circumstances and financial condition.

Neither the BNY Mellon Liquidity Funds plc nor any of its sub-funds has, or will be, registered in the U.S. under the Investment Company Act of 1940, and the shares in the sub-funds are not registered under the U.S. Securities Act of 1933. Therefore, investors will not be entitled to the benefits of such registration(s). Investors must carefully consider the risks associated with the investments described herein, some of which include: i) investing in the sub-funds is not comparable to investing in a deposit account; ii) investments are subject to uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments are made or in which the BNY Mellon Liquidity Funds plc is incorporated; iii) the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection of information to investors as would generally apply in major securities markets; iv) a sub-fund may use futures or options which can increase volatility and the risk of loss; v) the value of a sub-fund will fluctuate in accordance with the changes in the foreign exchange rate between the euro, the dollar, the sterling and the currencies in which the sub-fund's investments are denominated, therefore creating an exposure to currency risk; vi) value of a sub-fund may be affected by changes in interest rates and the creditworthiness of issuers of the sub-fund's investments; and vii) certain sub-funds may invest in lower-rated fixed income securities, and such securities carry a higher degree of default risk which may affect the value of an investment. The foregoing list of certain risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the fund described herein. In addition, as the investment markets and investment products develop and change over time, an investment may be subject to additional and different risk factors. No assurance can be made that profits will be achieved or that substantial losses will not be incurred. **Investors should read the Prospectus and/or KIID before deciding to invest.** These documents can be obtained from BNY MFM Lux or from BNY Mellon Securities Corporation.

¹ As a measure of current income, 7-day yield more closely reflects the fund's current income-generating ability than the total return.

² The yields quoted reflect the current absorption of certain fund expenses, without which yields would be "restated" as shown above.

³ Portfolio composition is subject to change at any time.

⁴ Please see the prospectus for expenses as of the fund's most recent fiscal year-end. Operating expenses may vary from month to month.

⁵ Initial purchase of shares must be placed with the Administrator in Dublin by 12:00 noon, New York time (ET) (subsequent purchases and redemptions by 5:00 p.m., New York time (ET)), payment for which is received by 6:00 p.m., New York time (ET), to be effected at the net asset value per share determined at 5:00 p.m., New York time (ET), on that Valuation Day, and will receive the dividend for that day.

⁶ Data reflects days until final maturity for individual portfolio securities.

⁷ WAL is a measure of the average final maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. Unlike WAM, WAL calculations do not allow maturities to be shortened for periodic interest rate resets. Accordingly, WAL will generally be higher than WAM.

⁸ WAM is a measure of the average effective maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. WAM calculations allow for the maturities of certain securities with periodic interest rate resets to be shortened. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.

⁹ Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell or hold the shares of a fund. All funds are formally assessed on annual basis with each of the BNY Mellon Liquidity Fund plc ratings affirmed in 2024. However, the funds are subject to ongoing surveillance and the rating agencies may revise the fund rating or outlook at any time. ⁵Standard & Poor's (S&P) believes that, with a Principal Stability Rating of AAAM, a fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology, visit www.standardandpoors.com. Moody's Investors Service rates money market mutual funds 'Aaa-mf' if, in Moody's opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody's assessment of a fund's Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology, visit www.moody.com. Fitch's International Money Market Fund Rating of AAAMmf denotes Fitch's opinion that a fund has an extremely strong capacity to achieve its investment management objective of preserving principal and providing shareholder liquidity through limiting credit, market, and liquidity risk. Fitch's rating does not opine on any quality other than a fund's ability to maintain a stable net asset value. For more information on rating methodology, visit www.fitchratings.com. Rating agencies may revise or withdraw their ratings at any time, and ratings are not intended to guarantee a fund's performance, nor are they intended to signal the appropriateness of an investment.
